

ENVIRONMENTAL SUSTAINABILITY POLICY

INTRODUCTION

The earth's environment is under severe stress from uncontrolled human activity, threatening the survival of our society and the performance of Global Consolidated Contractors (International) Limited's mission.

Global Consolidated Contractors (International) Limited accepts that it must work to preserve the environmental sustainability of the planet, at all levels of its operations – in its own practice, as a participant in a community of practice, and as a participant in the Australian social discourse.

Global Consolidated Contractors (International) Limited aspires to minimize its impact on our environment and maximise the effective use of resources. We strive to achieve this by increasing communication and awareness of our efforts in accordance with this policy and fostering responsible environmental behaviour amongst staff, volunteers, and users at all levels.

Global Consolidated Contractors (International) Limited is committed not only to complying with applicable law in all its operations but to minimise risks and impacts through the development of robust and documented systems to implement, measure, monitor, and disseminate excellent environmental performance both within its operations and to the broader community.

PURPOSE

This Environmental Sustainability Policy aims to integrate a philosophy of sustainable development into all the organisation's activities and to establish and promote sound environmental practice in our operations.

POLICY

Global Consolidated Contractors (International) Limited commits itself to minimizing its impact on our environment through

- Providing a safe and healthful workplace.
- Having an environmentally sustainable aware culture, where responsibility is assigned and understood.
- Being an environmentally responsible neighbour in our community.
- Conserving natural resources by reusing and recycling.
- Using, in our own operations, processes that do not adversely affect the environment.
- Ensuring the responsible use of energy throughout the organisation.
- Participating in efforts to improve environmental protection and understanding.
- Taking steps to improve environmental performance continually.
- Conducting rigorous audits, evaluations, and self-assessments of the implementation of this policy.
- Working with suppliers who promote sound environmental practices; and
- Enhancing awareness among our employees, volunteers, and users – educating and motivating them to act in an environmentally responsible manner.
